ENDURANCE BLADING**

GREAT FISHING BOOK

Buck Wilder's *Small Fry Fishing Guide* is the absolute best fishing book we've ever come across...and it's designed and written just to get kids started fishing. It's got all kinds of information for any of you out there who have never gone fishing before. It will even help those of you who *have* done some fishing! It's a large size book with all color cartoons and words all over the place (kind of like *Mad Magazine*). It has some neat build-it-yourself projects at the end, plus a place to write down all your favorite stuff. Tells how to catch different fish, how to bait a hook, where to get free bait, everything you need to get started. A really, really good book. It's \$12.95. Call 800/994-BUCK to order.

\$1.95 - August 1995

PLUS: MUD DIVING, RABIES, PREGNANCY, 4X4s, THE PERFECT PACK, PADDLE DESIGN
